CHEEKTOWAGA, N.Y. – Nobody was hurt after a car smashed into the Pizza Factory restaurant Thursday afternoon.

The crash happened around 1 p.m. at 444 Borden Road.

The car took out the glass front door of the restaurant and caused some other cosmetic damage inside. A Town building inspector did not see any structural damage to the building.

The pizzeria was open at the time of the crash, but no customers were inside. The owner said this wasn't the first time in his four decades of doing business that this has happened.

The crash appears to be accidental at first glance. Cheektowaga Police accident investigators will interview the elderly driver to make a final determination.
