A scary situation in Cheektowaga reminds us to make sure we don't let anyone into our homes. Always make sure if something seems wrong, trust your instinct, and contact the police.

According to WGRZ, A Cheektowaga home was recently burglarized after suspects pretended to be utility workers to gain access into the home. The suspects told the resident they needed to check the water pressure. Cheektowaga Police say the incident happened in the neighborhood south of St. Joseph Hospital.

Luckily nobody was hurt, but this is a good reminder to be on the look out for suspicious behavior and always ask to see identification from anyone trying to get into your home.
